## WORKDAY@LANGARA SURVEY TWO

Our recent survey had a response rate of 25%. Thank you to all our faculty and staff who took the time to complete this survey.

### Survey Highlights

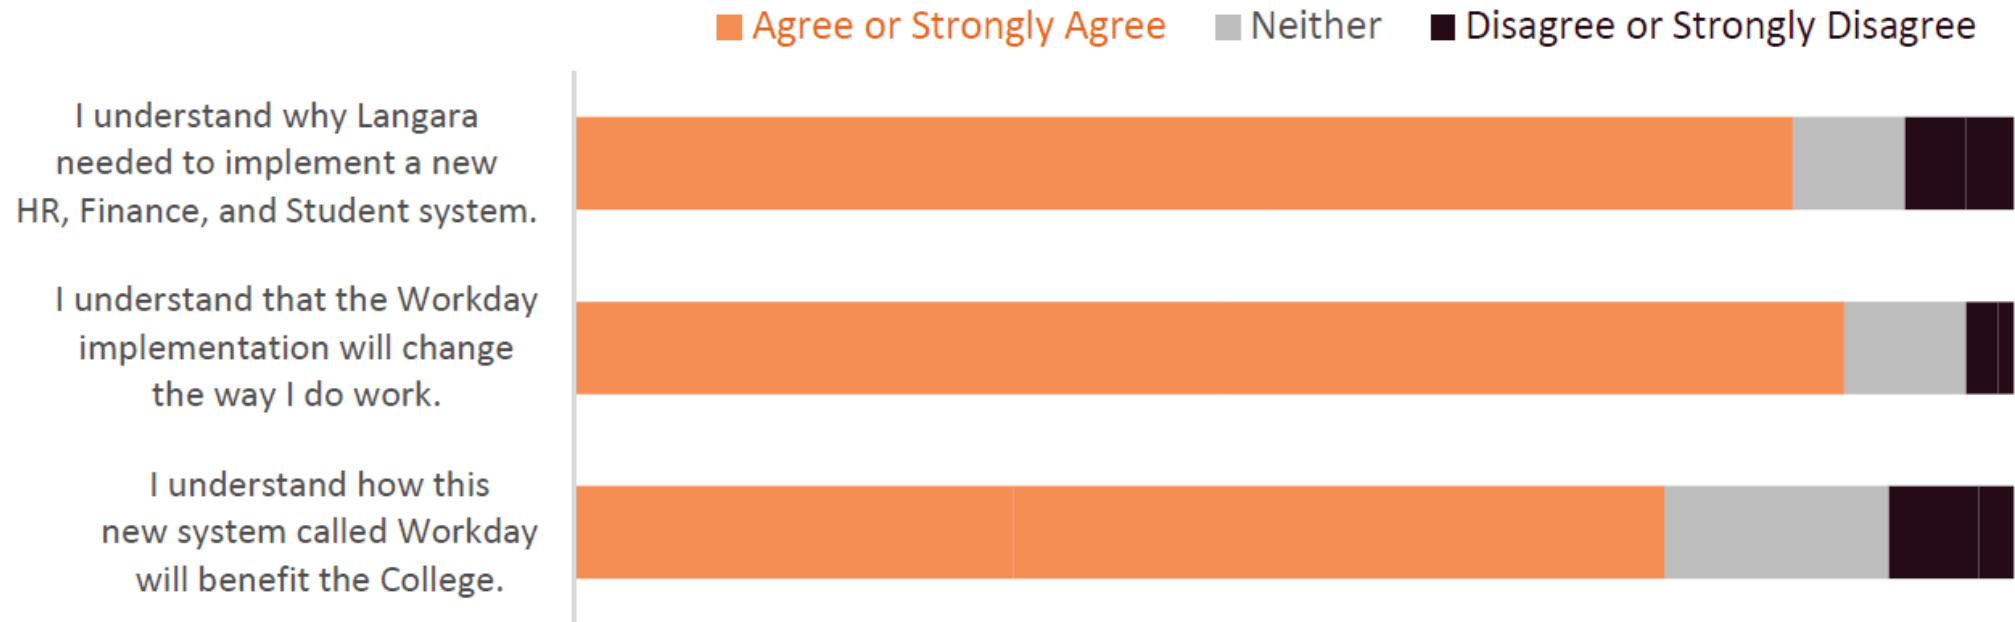

- 85% agreed with the statement “I understand why Langara needed to implement a new HR, Finance, and Student system” (up 15% from survey one)
- Only 1.4% of our community disagreed or strongly disagreed with the statement “I am willing to contribute to support a successful Workday implementation.” (down 0.5% from survey one)
- 70% of respondents believe Workday will be a positive change for them and will enable them to manage their information and perform People and Culture and Finance tasks more efficiently.

### Questions, concerns or thoughts

- Respondents were most excited about: the arrival of Workday, starting training, and moving forward with Workday Student.
- Respondents were most interested to learn: what their role in Workday will look like, the details of how certain processes will work, and how much training they will need to do.

# What we're doing.

## PLANNED ACTIONS

- We've opened registration in our instructor-led training series and published an overview of our training plan on our website. We're also building our Workday Training SharePoint site, where you can find lots of helpful resources, such as how-to guides.
- We're also conducting orientation sessions for Managers and Budget officers to help them understand their role in Workday.
- We'll continue our presentations across the College, so please contact us to arrange a visit to your department: [workday@langara.ca](mailto:workday@langara.ca).
- We invited over 170 people to participate in our User Confirmation Sessions, an opportunity for individuals across the College to gain familiarity with Workday and help us improve our training materials.
- We're planning a final Open House on Dec 11, 2019, with a focus on support and training as well as fun!
- We will be conducting more surveys throughout the project to keep in touch with you.
